

## Sale or hire

Our stands can be purchased outright or hired for the duration of your exhibition. Special discounted rates apply to individual artists staging their own exhibitions.

Please contact us for details.

## Table-top displays

We offer a bespoke design and manufacture service for your table-top displays. Whether it's for greetings cards, prints, or brochures we can provide the solution you need.

The stand shown below incorporates LED illumination to create an eye-catching display.

Please talk to us about your requirements.

# PORTABLE DISPLAY STANDS

Designed specifically, but not exclusively, for artists and photographers, our stands can be transported in the boot of most cars, packing down to about a metre square.

When assembled each standard stand (one upper and lower panel) is just over 2m tall and 87cm wide. The smaller version is 1.875m tall by 64cm.

Any configuration of stands is possible from zig-zag to star.

## PANEL OPTIONS

The standard panels are white composite and can be used as a white board. Various coloured panels are available to special order as are white-faced hardboard, Velcro, and cork-covered pin-board.

## SIMPLE HANGING SYSTEM

The track in each upper frame houses moveable bolts from which nylon cords, each with a crimped eyelet, are hung.

*Picture hook and nylon cord.*

Each adjustable picture hook can take up to 10kg. More than one picture hook can be attached to each cord thereby allowing several pictures to be hung from one pair of cords.

## ACCESSORIES

12v LED Spotlamps

12v LED Striplights

Lighting control

Brochure holder

Clip-in shelf . A brochure holder or lighting controller can also be fitted here.
